PART III - ORGANIZATION OF WILL

The following is a guide for the organization of the typical Will. Complete as much as you can or telephone us to arrange an interview.

GUARDIANS:

You should appoint a guardian for your children in case you and your spouse do not survive their minority (under age 19). Please give full names, addresses, occupations and relationship to you. Please name two guardians (either together or in the alternative) in case your first choice is unable to act as guardian.

EXECUTORS:

The executors step into the shoes of the deceased, gather in his/her assets, pay his/her debts and distribute the estate in accordance with the terms of the Will. Please give full names, addresses, occupations and relationship to you. Please name two executors (either together or in the alternative) in case your first choice is unable to act as executor. If your spouse is the sole beneficiary in the first instance, he/she should probably be sole executor.

DISTRIBUTION

Special Bequests:

Bequests of specific items and/or sums of money. Please give full names of each beneficiary, address, occupation and relationship to you. Please note that these specific items and/or sums of money will be given and paid to the beneficiaries before the bulk of the estate is distributed and will therefore reduce the amount passing to beneficiaries of the "residue".

Spouse Will:

Do you wish to leave all your estate to your spouse? If so, your spouse may be named as sole executor (and you will probably not make specific bequests as indicated above).

Yes: _____ No: _____

If your spouse does not survive you, to whom do you wish your estate to pass? Please complete the next portion of the questionnaire entitled "Non-Spouse Will". These clauses will only take effect if your spouse does not survive you.

Non-Spouse Will (for use either following spouse Will or instead of spouse Will):

The residue of your estate may pass to one or more beneficiaries. You also may wish your estate to pass to a first level of beneficiaries and in the event these beneficiaries do not survive you, to a second level of beneficiaries (e.g. first level: to my children equally; second level: if my children are not living at the date of my death, divide the estate between the following persons ...) Please give full names of each beneficiary, address and relationship to you.

First Level:

Second Level (if this level is unlikely, do not be complex):

If one of the above beneficiaries is not alive at the date of your death, do you wish his/her share to pass to his/her children (**yes / no**) or do you wish his/her share to be divided equally between the other living beneficiaries (**yes / no**)?

If a beneficiary is an infant (under the age of 19 years) at what age do you wish the estate to pass to him/her, **19 years** _____, **21 years** _____, or _____ **years**?

TRUSTEE POWERS:

Your executor is also the trustee of your estate and should be given direction regarding investment of the "trust fund" which makes up the residue of your estate.

Your trustee may be given powers additional to those allowed under the law. Some important powers are:

1. To invest:

Do you wish your trustee to be given restrictive investment powers (**yes / no**), or be given broad powers of investment allowing your trustee to use his/her discretion in investing your "trust funds" (**yes / no**).

2. To settle accounts and claims.
3. To use income and capital of infant beneficiary for his/her benefit, power to pay guardian or beneficiary directly or attaining the age of majority. (Infant means under age 19 in British Columbia.)
4. To grant leases on real estate.
5. To mortgage property to raise funds without selling.
6. To carry on or discontinue a business.
7. To buy additional shares, and/or participate in re-organization of your company.
8. To delegate trustee's functions to another party (e.g., a trust company).
9. To accept receipt of charitable institution for bequest.
10. To settle duties and death taxes.
11. To distribute in specie, i.e., distribute assets comprising "trust fund" without converting those assets to cash before distribution.
